

Our school uses a paper free communication system with families as often as possible. We email newsletters, reminders, and other types of information directly to your preferred email account(s). The classroom pages on the school's website contain all of the information you need from your classroom teachers and wonderful weekly photos of your child engaged in active learning.

Separately, Alcott School's emergency communication system (K12 Alerts) utilizes email, text and/or automated phone calls to inform you of school closings, power outages, and emergency situations at school, etc.

Please return this form to school before your child's start date to ensure that you receive important messages.

Child's name: _____ Date: _____

Site: Crane Road Dobbs Ferry Fox Meadow Road
